

: Essential

essential tools to get you started

Solid Essential is Cabinet Vision's entry level, design to manufacture software solution. It comes packed with the "essential" tools every cabinetmaker needs to take their business to the next step.

Room design, photo realistic rendering capabilities, basic material estimation, cut lists and reports are all part of the core abilities of Solid Essential. Right out of the box, and ready to use.

Increase the power of Solid Essential by adding on S2M Essential and connect to your CNC.

And as a part of the Cabinet Vision range, you've got options when it's time to add on additional features.

Solid Essential is the perfect solution to get you started on the path to success.

- Extensive design views & job information including floor plan, elevation, wire, 3D and photo rendering.
- Quick & easy cabinet editing with openings, doors, drawers, shelving & divisions
- with Photo Vision create photo realistic renderings with shadows and reflections
- Move with design trends:
 - Door & Drawer front style definition
 - Straight, Angled and Peninsula walls
 - Display appliance, fixtures & fittings
- Design your own cabinetry & save to your favourites, building up your own custom library
- View material & job information with print out reports
- Add detail to your design using basic 2D CAD Functionality
- Create & save your own title blocks
- User defined cabinet & drawer box construction wizard.
- add on CNC functionality
