

The future of woodworking

Sign up for your copy today

We are pleased to announce that **Cabinet Vision Version 5** has been released, packed with new features and enhancements, including an easy to use ribbon-bar interface, multiple floors, smart snapping and much more.

The biggest change is the module restructuring for Solid core products. To emphasis our focus & commitment to manufacturing solutions, the Solid core products will be Essential, Standard, Advanced and Ultimate.

Order your copy of V5 Software Update Program today which includes Version 5 Update, Point Releases & access to E Support for 12 months.

If you are on an earlier version or require a network installation, contact your local Planit representative or fill out Step 1 only & we will contact you.

In addition to purchasing V5 Software Update Program, attend one of our training options which will demonstrate the new features & their intended use, giving you the opportunity to capitalise on the new features in Version 5 for your business.

To get started with V5 Software Update Program, here's how:

Step 1: Fill out your company & contact details:

Contact Name: _____ Company Name: _____

Address: _____ Suburb: _____ STATE: _____ PCODE _____

Phone: _____ Email: _____

Step 2: Sign up for V5 Software Update Program

- Includes Version 5 Update, E Support & Point Releases for 12 months.

Step 3: Sign up for one of our training options (all classes are depending on number of confirmed attendees):
